

Add Remote Services

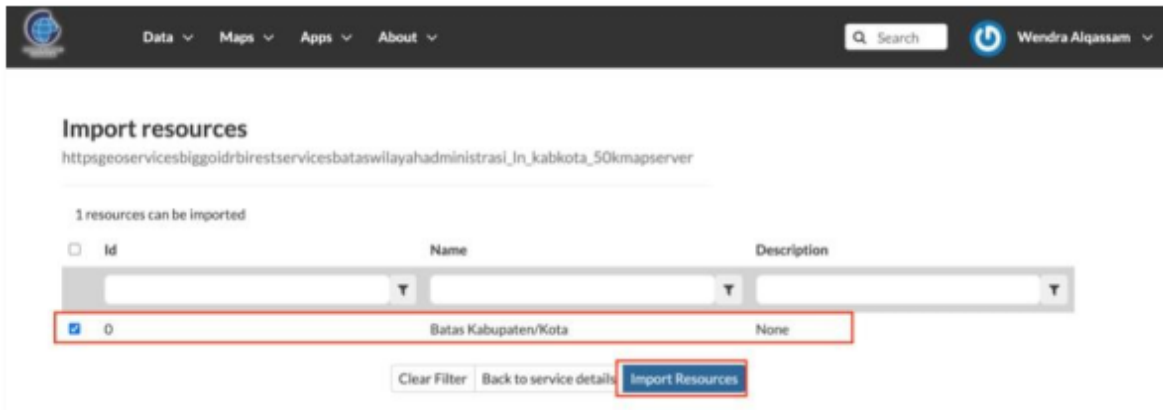

1. Menambahkan GIS Services dari Geoportal instansi/lembaga lain untuk ditampilkan di system sendiri. Contoh menambahkan GIS Services dari Badan Informasi Geospasial tentang batas wilayah kab/kota dengan url services :
https://geoservices.big.go.id/rbi/rest/services/BATASWILAYAH/Administrasi_LN_KabKota_50K/MapServer
2. Masuk ke menu **Data**→**Add Remote Services**

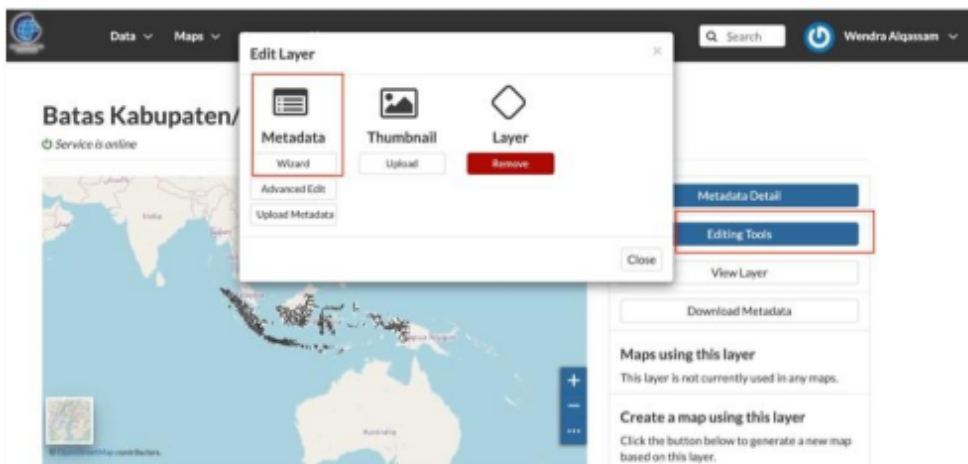

3. Tambahkan **URL Services**, dan Pilih **Services Type**, lalu klik **Create**

A screenshot of the 'Register New Service' form in the Geoportal web application. The form has two input fields: 'Service URL' and 'Service Type'. The 'Service URL' field contains the text 'https://geoservices.big.go.id/rbi/rest/services/BATASWILAYAH/Administrasi_LN_KabKota_50K/MapServer'. The 'Service Type' field is a dropdown menu with 'ArcGIS REST MapServer' selected. Below the fields is a blue 'Create' button, which is highlighted with a red rectangle.

4. Pilih Resources data yang ingin dimasukkan lalu klik **Import Resources**

5. Services sukses ditampilkan, selanjutnya Melengkapi metadata dan mengatur permission
